

Group No.02

DAYANANDA SAGAR COLLEGE OF ENGINEERING

An Autonomous Institute affiliated to Visvesvaraya Technological University (VTU), Belagavi,
Approved by AICTE and UGC, Accredited by NAAC with 'A' grade
Shavige Malleshwara Hills, Kumaraswamy Layout, Bengaluru - 560 111. India

Department of Information Science and Engineering

(Accredited by NBA Tier 1: 2025-2028)

Interdisciplinary Project Based Learning (1BPRJ208)

(NEP, 2025 Batch, A.Y. 2025 -2026 (2 SEMESTER))

Weekly Progress Record**CREDITS:** 01**CIE:** 50 Marks**SEE:** 50 Marks**Duration in hours:** 01hours**L: T: P: S:** 1:0:0:0**Total:** 100 Marks

Name of the student 1	Shivam Raj	USN1:	1DS25EC244
Name of the student 2	Desari Yogesh Lesyak	USN2:	1DS25EC082
Name of the student 3	Armaan Anil Narang	USN3:	1DS25EC050
Name of the student 4	Anushka Gupta	USN4:	1DS25EC047
Semester and section	II - ECE (A) II – IS (A/B/C)	Section Coordinator Name	Dr. Muzameel Ahmed/Dr. Reshma J/Prof. Bharath BC
Guides Name	1. **Internal** 1. Dr. Sumit Swain (Internal) 2. **External**		
Designation	1. **Internal** 1. Assistant Professor, ECE, DSCE 2. **External**		
Contact Number	1. **Internal** 1. +91XXXXXXXXXX 2. **External**		
Mail-ID	1. **Internal** 1. sumitswain-ece@dayanandasagar.edu 2. **External**		

Vision of the Department

To be recognized globally as a premier department in the field of Information Science and Engineering that provides transformative education with a focus on sustainable research and innovation to meet the ever-growing needs of the society.

Mission of the Department

The Department of Information Science and Engineering is committed to:

- **Quality Education:** Excellence in education, grounded in sustainable learning practices, critical thinking, and professional ethics.
- **Innovation:** Transform professionals into technically competent with lifelong learning skills through creativity & innovation ecosystem to solve critical problems, create leaders and entrepreneurs.
- **Impact on Society:** Preparing graduates of the future alongside the workforce to contribute to the society with a focus on sustainable and inclusive technology.

Program Education Objectives

Within a few years after graduation, the graduates of Information Science and Engineering will be able to:

- **PEO1:** Apply appropriate theory, practices, and tools to the specification, design, implementation, maintenance, and evaluation of information science & computing in the workplace or in the advanced studies.
- **PEO2:** Function effectively as competent professionals, leaders, entrepreneurs or researchers in the workplace, or maintain employment through lifelong learning including professional conferences, certificate programs or other professional activities and societal awareness.
- **PEO3:** Adapt, contribute and innovate new technologies in their computing profession to the society by working in teams to design, implement, and/or maintain in the key domains of Information Science Engineering.

Program Specific Outcomes

Engineering Graduates will be able to:

- **PSO1:** Apply mathematical and analytical knowledge to solve complex problems through computer programming skills.
- **PSO2:** Solve real-world engineering problems in information science engineering by applying the principles in Data Science, Network and Security, Gaming and Design, and Machine Intelligence.
- **PSO3:** Apply technical skills and research skills acquired through professional societies, certification programs, projects, internships and laboratory exercises to solve problems that provide sustainable solutions related to the society and the environment.

New POs as per NBA-2024

PO1: Engineering Knowledge: Apply knowledge of mathematics, natural science, computing, engineering fundamentals and an engineering specialization as specified in WK1 to WK4 respectively to develop to the solution of complex engineering problems.

PO2: Problem Analysis: Identify, formulate, review research literature and analyze complex engineering problems reaching substantiated conclusions with consideration for sustainable development. (WK1 to WK4)

PO3: Design/Development of Solutions: Design creative solutions for complex engineering problems and design/develop systems/components/processes to meet identified needs with consideration for the public health and safety, whole-life cost, net zero carbon, culture, society and environment as required. (WK5)

PO4: Conduct Investigations of Complex Problems: Conduct investigations of complex engineering problems using research-based knowledge including design of experiments, modelling, analysis & interpretation of data to provide valid conclusions. (WK8).

PO5: Engineering Tool Usage: Create, select and apply appropriate techniques, resources and modern engineering & IT tools, including prediction and modelling recognizing their limitations to solve complex engineering problems. (WK2 and WK6)

PO6: The Engineer and The World: Analyze and evaluate societal and environmental aspects while solving complex engineering problems for its impact on sustainability with reference to economy, health, safety, legal framework, culture and environment. (WK1, WK5, and WK7).

PO7: Ethics: Apply ethical principles and commit to professional ethics, human values, diversity and inclusion; adhere to national & international laws. (WK9)

PO8: Individual and Collaborative Team work: Function effectively as an individual, and as a member or leader in diverse/multi-disciplinary teams.

PO9: Communication: Communicate effectively and inclusively within the engineering community and society at large, such as being able to comprehend and write effective reports and design documentation, make effective presentations considering cultural, language, and learning differences

PO10: Project Management and Finance: Apply knowledge and understanding of engineering management principles and economic decision-making and apply these to one's own work, as a member and leader in a team, and to manage projects and in multidisciplinary environments.

PO11: Life-Long Learning: Recognize the need for and have the preparation and ability for i) independent and life-long learning ii) adaptability to new and emerging technologies and iii) critical thinking in the broadest context of technological change. (WK8)

SDGs (Sustainable Development Goals) from UN

1. **No Poverty:** End poverty in all its forms everywhere
2. **Zero Hunger:** End hunger, achieve food security and improved nutrition and promote sustainable agriculture
3. **Good Health and Wellbeing:** Ensure healthy lives and promote well-being for all at all ages
4. **Quality Education:** Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all
5. **Gender equality:** Achieve gender equality and empower all women and girls
6. **Clean water and Sanitation:** Ensure availability and sustainable management of water and sanitation for all
7. **Affordable and Clean Energy:** Ensure access to affordable, reliable, sustainable and modern energy for all
8. **Decent work and Economic growth:** Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all
9. **Industry, Innovation and Infrastructure:** Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation
10. **Reduced Inequalities:** Reduce inequality within and among countries
11. **Sustainable cities and Communities:** Make cities and human settlements inclusive, safe, resilient and sustainable
12. **Responsible consumption and production:** Ensure sustainable consumption and production patterns
13. **Climate action:** Take urgent action to combat climate change and its impacts
14. **Life below water:** Conserve and sustainably use the oceans, seas and marine resources for sustainable development
15. **Life on Land:** Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, halt and reverse land degradation, and halt biodiversity loss
16. **Peace, justice and strong institutions:** Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels
17. **Partnership for Goals:** Strengthen the means of implementation and revitalize the global partnership for sustainable development

DAYANANDA SAGAR
COLLEGE OF ENGINEERING

AN AUTONOMOUS INSTITUTE
AFFILIATED TO VTU
APPROVED BY AICTE & UGC
ACCREDITED BY NAAC WITH 'A' GRADE
ACCREDITED BY NBA

CALENDAR OF EVENTS

25
26

UG - CALENDAR OF EVENTS FOR 2nd SEM 2025-26

WEEK NO.	MONTH	DAYS						NO. OF WORKING DAYS	REMARK
		Mon	Tue	Wed	Thu	Fri	Sat		
01	MAR	*2	*3	*4	*5	*6	7	05	*2 nd to *6 th - Course Registration (Mandatory for all students) and AICTE Activity Point Registration Students Induction Program/ Talent Day, *2 nd - Commencement of classes 7 th - First Saturday, Holiday
02	MAR	9	10	11	12	13	14	06	
03	MAR	16	17	18	19	20	21	04	19 th - Ugadi, Holiday 21 st - Ramzan, Third Saturday, Holiday
04	MAR	23	24	25	26	27	28	06	28 th : Proctor Meeting I and IPBL meeting (Interdisciplinary Project Based learning meeting with Guides in respective branches)
05	MAR/APR	30	31	1	2	3	4	03	31 st - Mahaveer Jayanthi, Holiday 3 rd - Good Friday, Holiday 4 th - First Saturday, Holiday
06	APR	6	7	*8	*9	*10	11	06	*8 th to *10 th - Internal Assessment Test 1 (IAT- I) 11 th : Proctor Meeting II and IPBL meeting (Project meeting with Guides in respective branches), Initiation of the project, Concept Development & Design
07	APR	13	14	15	*16	17	18	04	14 th - Ambedkar Jayanthi, Holiday 16 th - Display of IAT-I marks 17 th : Student feedback I 18 th - Third Saturday, Holiday
08	APR	20	21	22	23	24	25	05	20 th - Basava Jayanthi, Holiday 25 th : Proctor Meeting II and IPBL meeting (Project meeting with Guides in respective branches), Initiation of the project.
09	APR/MAY	27	28	29	30	1	2	04	1 st - May Day, Holiday 2 nd - First Saturday, Holiday
10	MAY	4	5	6	7	8	9	06	25 th : Proctor Meeting III and IPBL meeting (Project meeting with Guides in respective branches), Initiation of the project and Prototype Development
11	MAY	*11	*12	*13	14	15	16	05	*11 th to *13 th - Internal Assessment Test 2 (IAT- II) 13 th : (Tentative) One credit course Humanities ONLINE Test -IAT2 (Timings will be informed by course coordinator) 16 th - Third Saturday, Holiday
12	MAY	18	19	*20	21	22	23	06	20 th -Display of IAT - II Marks 23: 13 th : Morning: (Tentative) One credit course

									Humanities OFFLINE test –IAT (Timings will be informed by course coordinator) Afternoon: Proctor Meeting III and IPBL meeting (Project meeting with Guides in respective branches), Testing & Validation, and Scintillating Idea project competition/ exhibition in Physics Lab (Only with prior registered FY student teams can participate)
13	MAY	25	26	27	28	29	30	05	28 th – Bakrid, Holiday Proctor Meeting IV and IPBL meeting (Project meeting with Guides in respective branches), Documentation & Presentation
14	JUN	***1	***2	***3	***4	***5	6	05	***1 st to ***5 th – Laboratory Internal Assessment, Interdisciplinary Project Based Learning Internal Evaluation, Final Demo and Social Pitch, CIE evaluation of mini project all batches, Course End Survey 6 th – First Saturday, Holiday
15	JUN	8	9	10	*11	*12	*13	06	*11 th to *13 th – Internal Assessment Test 3 (IAT- III)
16	JUN	15	16	*17	18	*19		05	*17 th – Display of IAT – III Marks 19 th – Submission of CIE Marks and Attendance to COE Office, Last Working Day
Total number of working Days		15	14	16	14	14	8	81	

Note: Extra classes could be scheduled in the time table and individual lesson plan to compensate for the minimum required working days.

- 1) Dates may change subject to directives from Government/ University/ Compliance agencies or other Emergencies.
- 2) In case of any holidays, the event will take place on the next working day or on an alternate date that would be announced.

Note: June 22nd 2026 Onwards – Semester End Examination (Tentative)

THE CALENDAR OF EVENTS IS SUBJECT TO MODIFICATIONS

DAYANANDA SAGAR COLLEGE OF ENGINEERING

(An Autonomous Institute affiliated to Visvesvaraya Technological University (VTU), Belagavi,
Approved by AICTE and UGC, Accredited by NAAC with 'A' grade & ISO 9001-2015 Certified
Institution)

Shavige Malleshwara Hills, Kumaraswamy Layout, Bengaluru - 560 111, India.

Interdisciplinary Project Work - Scheme of evaluation

Interdisciplinary Project Work		Semester	2
Course Code	1BPRJ208	CIE Marks	50
Teaching Hours/Week (L:T:P: S)	0:0:2	SEE Marks	50
Total Hours of Pedagogy	2 (Full day of Saturday may be allotted)	Total Marks	100
Credits	1	Exam Hours	
Examination type (SEE)	Presentation		
Course Outcome (Course Skill Set) - On successful completion, students will be able to: 1. Identify and define problems requiring interdisciplinary knowledge. 2. Apply basic concepts of science, engineering, and technology to design simple solutions. 3. Work effectively in teams with defined roles and responsibilities. 4. Use project management, documentation, and presentation skills. 5. Develop socially relevant, sustainable, and innovative prototypes/solutions.			
Week - 1, 2 & 3: Introduction, Orientation, Team Formation and Literature Survey (14.3.2026 to 28.3.2026)			
Week -1 & 2: Introduction to project-based learning & interdisciplinarity. Motivational talk / case studies of successful student projects. Ice-breaking and team-building activities. Formation of groups (4–6 students). Selection of broad theme areas. Brainstorming techniques {mind mapping, 5W1H (what, who, when, where, why, and how) SCAMPER}. Identifying problems. Discuss feasibility & Interdisciplinarity. Mentor approval of project problem.			
Week-3: How to search for prior work (journals, patents, research project, case studies). Understanding user needs. Role of each engineering branch in solving the problem.			
Deliverables - Team list + chosen theme area and Literature survey report.			
Week- 4, 5 and 6: Problem Statement, Multiple Solution Ideas and Selection of Best IDEA (11.4.2026 to 25.4.2026)			
Week-4 & 5: Refining the problem statement. Identifying constraints and scope. Framing objectives & expected outcomes. Generating multiple solution ideas. Discussing feasibility (technical, economic, social). Team roles assigned (design, research, coding, documentation, testing).			
Week-6: Criteria-based selection of best idea (decision matrix). Rough sketches, block diagrams, flowcharts. Resource planning (materials, software, tools).			
Deliverables - Finalized Problem definition with objectives, List of solution concepts (sketches/flowcharts) and Design document (diagrams, flow)			
Week -7, 8 and 9: Selection of Best IDEA and Prototyping (9.5.2026)			
Week-7: Work breakdown structure (task division). Timeline for development. Safety & ethical considerations.			
Week-8&9: Development of subsystems/modules, Application of classroom knowledge (Electrical circuits, coding, mechanics, CAD, etc.), Peer & mentor review sessions.			
Deliverables - Prototype development plan, Subsystem demos (partial working models).			

DAYANANDA SAGAR COLLEGE OF ENGINEERING

(An Autonomous Institute affiliated to Visvesvaraya Technological University (VTU), Belagavi, Approved by AICTE and UGC, Accredited by NAAC with 'A' grade & ISO 9001-2015 Certified Institution)

Shavige Malleshwara Hills, Kumaraswamy Layout, Bengaluru - 560 111, India.

Week 9, 10, 11 & 12: Prototyping stage 2 using Atal Idea Lab/Makers Space (23.5.2026)
Week-9 & 10: Integration of subsystems. Debugging & troubleshooting. Improvement based on test results.
Week-11 & 12: Testing against objectives & user requirements. Experimentation results (tables, Graphs). Analyzing failures/limitations.
Deliverables – Prototype/working model, Testing Results, Limitations/challenges
Week 13 & 14: Refinement & Pre-Final Review (30.5.2026)
Week-13 & 14: Refining prototype for efficiency, cost and sustainability. Internal review & peer feedback. Preparing visuals for final presentation (posters, PPT, demo video).
Deliverables – Final Results of Experimentation or Testing & Working/ Prototype Model
IPBL CIE - Week 15 & 16: Final Demo and Social Pitch (1.6.2026 to 5.6.2026)
<i>Project pitching to jury - Presentation of the project with impact with assessment, prototype and sustainability plan</i>
Teaching-Learning Process (Innovative Delivery Methods) 1. Activity Based Learning 2. Group discussion, Presentations. 3. One faculty member shall be assigned to group of 60 students or one division. 4. Each group shall contain Min. 4 and Max. 6 students. 5. Nature of the group shall be multidisciplinary.
Assessment Structure: The assessment in each course is divided equally between Continuous Internal Evaluation (CIE) and the Semester End Examination (SEE), with each carrying 50% weightage. - To qualify and become eligible to appear for SEE, in the CIE, a student must score at least 40% of 50 marks, i.e., 20 marks. - To pass the SEE, a student must score at least 35% of 50 marks, i.e., 18 marks. Notwithstanding the above, a student is considered to have passed the course , provided the combined total of CIE and SEE is at least 40 out of 100 marks.

DAYANANDA SAGAR COLLEGE OF ENGINEERING

(An Autonomous Institute affiliated to Visvesvaraya Technological University (VTU), Belagavi, Approved by AICTE and UGC, Accredited by NAAC with 'A' grade & ISO 9001-2015 Certified Institution)

Shavige Malleshwara Hills, Kumaraswamy Layout, Bengaluru - 560 111, India.

Continuous Internal Evaluation (CIE) –

CIE Marks allocation Parameters for Interdisciplinary Project Work

CIE Parameters (50 Marks)

Stage/Activity	Weightage (%)	Marks (out of 50)	Description
Weeks 1–4: Problem Identification & Literature Survey (14.3.2026 to 28.3.2026)	10%	05 marks	Focus on forming teams, identifying problems, understanding user needs, and reviewing prior work through journals, patents, etc.
Weeks 5–7: Concept Development & Design (11.4.2026 to 25.4.2026)	20%	10 marks	Defining problem statements, framing objectives, generating ideas, preparing diagrams, flowcharts, and resource planning.
Weeks 8–11: Prototype Development. (by 9.5.2026)	30%	15 marks	Creating subsystems, applying theoretical knowledge, peer and mentor review sessions, debugging, and troubleshooting.
Week 12: Testing & Validation (by 23.5.2026)	10%	5 marks	Evaluating the prototype's performance, user requirements, experiments, and analysis of failures.
Weeks 13–14: Documentation & Presentation (by 30.5.2026)	30%	15 marks	Finalizing the prototype, improving based on feedback, preparing presentations, reports, and demonstration materials.
Week 15 & 16: Final Demo and Social Pitch (1.6.2026 to 5.6.2026)	IPBL CIE (1.6.2026 to 5.6.2026)		

*Minimum to Qualify for SEE: 20 out of 50 in CIE

DAYANANDA SAGAR COLLEGE OF ENGINEERING

(An Autonomous Institute affiliated to Visvesvaraya Technological University (VTU), Belagavi, Approved by AICTE and UGC, Accredited by NAAC with 'A' grade & ISO 9001-2015 Certified Institution)

Shavige Malleshwara Hills, Kumaraswamy Layout, Bengaluru - 560 111, India.

Semester End Examination (SEE) – IPBL

SEE to be conducted in batches where the students will exhibit their projects along with the presentation and Viva -voce. – 100 Marks

“SEE shall be conducted by one Internal and one External Examiner”

Component	Weightage (%)	Marks (out of 100)	Description
Final Presentation & Demonstration	30%	30	Clear articulation of the problem, solution approach, prototype, and team contribution. Delivery, engagement, and response to questions are evaluated.
•Prototype Quality & Functionality	30%	30	Working model evaluation, application of engineering principles, problem-solving effectiveness, debugging, and system integration.
Documentation Report	20%	20	Completeness, structure, accuracy, clarity in diagrams, data analysis, testing results, and conclusions.
Social Impact & Sustainability	05%	05	Relevance to society, cost-effectiveness, ethical considerations, environmental impact, and scalability.
Innovation & Originality	10%	10	Creativity, uniqueness, feasibility, and application of interdisciplinary concepts.
Viva – voce	5%	05	Viva – voce

Submission Requirements:

- Handwritten activity book with CIE marks and Final project report (Typed or Handwritten).
- Final presentation ppt/pdf (hard and soft copy).
- Prototype or working model [physical or conceptual (shall be drawn/sketched clearly on card sheet paper)].
- Peer/team feedback and reflection entries (if applicable).

DAYANANDA SAGAR COLLEGE OF ENGINEERING

(An Autonomous Institute affiliated to Visvesvaraya Technological University (VTU), Belagavi, Approved by AICTE and UGC, Accredited by NAAC with 'A' grade & ISO 9001-2015 Certified Institution)

Shavige Malleshwara Hills, Kumaraswamy Layout, Bengaluru - 560 111, India.

Guidelines for II semester Interdisciplinary Project based Learning (1BPRJ208) 2025-26

Project based learning broad theme: Energy, Water and Waste management to reduce environmental foot print - Initiatives & Implementation of Sustainable Development Goals (SDGs)

Course code: 1BPRJ208

Credit: 1

Sustainable Development Goals (Department of Economic and Social Affairs - Sustainable Development, United Nations) covered in this course: **SDG No. 3** (Good Health and wellbeing) **SDG No. 4** (Quality Education for life- long learning, **SDG 6** (Clean water) and **SDG 7** (Affordable and Clean Energy), **SDG No. 11** (Sustainable cities and Communities), **SDG No. 17** (Partnerships for goals). Based on the ability/abilities of the student/s and recommendations of the mentor, a multidisciplinary Mini- project can be assigned to a group having not more than 4 students.

CIE procedure for Mini-project:

I. Interdisciplinary:

Continuous Internal Evaluation shall be group wise at the college level with the participation of all the guides of the participating department of the batch.

The CIE marks awarded for the Mini-project shall be based on the evaluation of project report and viva voce in the ratio 50:50. The CIE marks shall be awarded by mentors of the concerned departments. The CIE evaluation of mini project shall be conducted in the 6th week of the semester. Progress report has to be of 4-5 pages.

Sequence of topics in Project progress report (Background, Literature, Work done so far and planned work)

Tentative schedule:

Sl No	Week	Activity	Tentative dates
1	Weeks 1-4	Batch allotment and project guide/title allotment, Problem Identification & Literature Survey.	14.3.2026 to 28.3.2026
2	Weeks 5-7	Initiation of the project, Concept Development & Design.	11.4.2026 to 25.4.2026
3	Weeks 8-11	Prototype Development	9.5.2026
4	Week 12	Testing & Validation	23.5.2026
5	Weeks 13-14	Documentation & Presentation	30.5.2026
6	Week 15 & 16	Final Demo and Social Pitch CIE evaluation of mini project all batches	1.6.2026 to 5.6.2026

DAYANANDA SAGAR COLLEGE OF ENGINEERING
(An Autonomous Institute affiliated to Visvesvaraya Technological University (VTU), Belagavi,
Approved by AICTE and UGC, Accredited by NAAC with 'A' grade & ISO 9001-2015 Certified
Institution)
Shavige Malleshwara Hills, Kumaraswamy Layout, Bengaluru - 560 111, India.

SEE for Mini-project:

Interdisciplinary: Contribution to the Mini-project and the performance of each group member shall be assessed individually in semester end examination (SEE) conducted separately at one of the departments to which the students belong to. SEE marks awarded for the Mini-project work shall be based on the evaluation of project report, presentation skill, design/working model and viva voce in the ratio 50:25:25. The SEE marks will be based on project report, presentation given by individual student and viva voce.

Project report is limited to within 10 pages. Sequence of topics in Project progress report (Introduction, Literature Survey, Methodology, results and discussion, Conclusion and future outlook and references)

Weekly Progress Details

Week 1	Date	From: 2-3-26	To: 7.3.26
Detailed Weekly Progress: 1. 1. Conducted initial group meeting; identified microplastics in drinking water as the project topic. 2. Reviewed environmental impact of microplastics; initiated literature study on conventional detection methods.			
Signature of Guide	1. 2.		

Week 2	Date	From: 9-3-26	To: 14.3.26
Detailed Weekly Progress: 1. 1. Completed literature survey on existing detection techniques (filtration, spectroscopy, microscopy). 2. Reviewed papers on capacitive and impedance-based sensors for water quality monitoring.			
Signature of Guide	1. 2.		

Week 3	Date	From: 16-3-26	To: 21.3.26
Detailed Weekly Progress: 1. 1. Studied fractional-order modelling concepts; reviewed guide's publications on fractional capacitors. 2. Finalized project approach: CNT-epoxy based capacitive sensor with fractional order parameter analysis.			
Signature of Guide	1. 2.		

Week 4	Date	From: 23-3-26	To: 28.3.26
Detailed Weekly Progress: 1. 1. Defined problem statement, objectives, and project scope; finalized project title. 2. Reviewed parallel plate capacitor design principles; prepared hardware component procurement list.			
Signature of Guide	1. 2.		

Week 5	Date	From: 30-3-26	To: 4.4.26
Detailed Weekly Progress: 1. 1. Developed concept for CNT-epoxy composite dielectric sensing layer; discussed electrode configuration. 2. Designed parallel plate electrode geometry; started 3D CAD model of rectangular sensor housing.			
Signature of Guide	1. 2.		

Week 6	Date	From: 6.4.26	To: 11.4.26
Detailed Weekly Progress: 1. 1. Completed 3D CAD design of rectangular sensor housing; sent to 3D printing. 2. Procured materials: copper plates (electrodes), 10 g epoxy resin, 50 mg MWCNT per sensor batch.			
Signature of Guide	1. 2.		

Week 7	Date	From: 13.4.26	To: 18.4.26
Detailed Weekly Progress:			
1. 1. Mixed 50 mg MWCNT with 10 g epoxy resin; cast composite dielectric layer and allowed to cure fully. 2. 3D-printed rectangular sensor casing; assembled sensor and verified structural integrity.			
Signature of Guide	1. 2.		

Week 8	Date	From: 20.4.26	To: 25.4.26
Detailed Weekly Progress:			
1. 1. Completed sensor fabrication: assembled two copper plates with cured CNT-epoxy composite dielectric. 2. Performed initial electrical characterization using signal generator and DSO; confirmed capacitive behavior.			
Signature of Guide	1. 2.		

Week 9	Date	From: 27.4.26	To: 2.5.26
Detailed Weekly Progress:			
1. 1. Set up complete experimental circuit: function generator (1 kHz to 10 MHz), sensor, and DSO. 2. Conducted baseline measurements with clean water; recorded reference magnitude and phase response.			
Signature of Guide	1. 2.		

Week 10	Date	From: 4.5.26	To: 9.5.26
Detailed Weekly Progress:			
1. 1. Performed systematic frequency-domain measurements with clean water; plotted magnitude vs frequency. 2. Recorded and analysed phase vs frequency plots; confirmed non-ideal fractional capacitor behavior.			
Signature of Guide	1. 2.		

Week 11	Date	From: 11.5.26	To: 16.5.26
Detailed Weekly Progress:			
1. 1. Prepared microplastic water samples (0 mg, 10 mg, 20 mg per 250 ml); conducted initial experiments. 2. Observed measurable changes in magnitude and phase with increasing microplastic concentration.			
Signature of Guide	1. 2.		

Week 12	Date	From: 18.5.26	To: 23.5.26
Detailed Weekly Progress:			
1. 			
Signature of Guide	1. 2.		

Week 13	Date	From: 25.5.26	To: 30.5.26
Detailed Weekly Progress:			
1.			
Signature of Guide	1. 2.		

Week 14	Date	From: 1.6.26	To: 6.6.26
Detailed Weekly Progress:			
1.			
Signature of Guide	1. 2.		

Week 15	Date	From: 8.6.26	To: 13.6.26
Detailed Weekly Progress:			
1.			
Signature of Guide	1. 2.		

Week 16	Date	From: 15.6.26	To: 19.6.26
Detailed Weekly Progress: 1.			
Signature of Guide		1. 2.
